

Discover this ancient land beyond its colonial past. This rugged landscape, better known as "The Man for Snowy River country", has a special beauty even more deeply revealed in the stories from its long time aboriginal inhabitants. In our summer program you will have access to locations in the vast high plains areas of Kosciusko National Park to express your story of this majesty. Shot in the Snowies: A photographic adventure is designed for anyone who's passionate about photographing Australia's spectacular landscape. This exciting and intensive workshop will provide both the beginner and the more experienced photographer with an understanding of the landscape and its history, as well as the necessary photographic tools to do justice to its beauty.

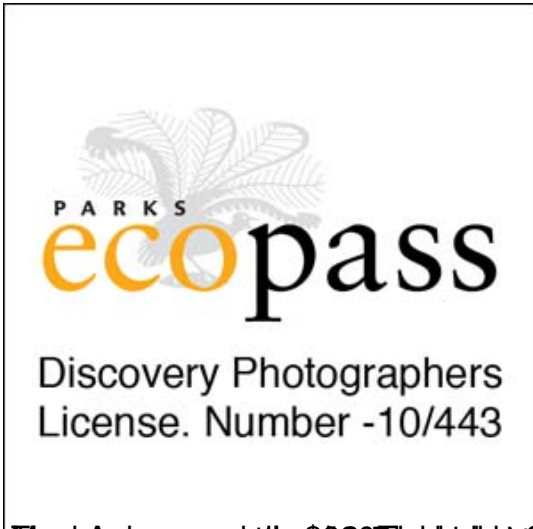

Book now for the first Summer workshop of the season at Currango Homestead April 27-29, 2012
